

**Matt Umscheid T'01**  
**Vice President, Operations**  
**Parthenon Capital**

“The Visiting Executive Program was a great opportunity to learn from accomplished executives in a personal setting and a fun way to represent Tuck. I remember the great VE team, many very enjoyable dinners with Executives and fellow students as well as lessons and observations that I still find helpful today. It was definitely a highlight of my Tuck experience and an honor to participate.”

“Today I work with Parthenon Capital as a member of the Operating Team. Our approach to private equity investing works to bring companies to their full potential and leverages the experience of investment and operations professionals. In my role I support our management teams with strategic issues, serve as a board member, and participate in the investment process. Through transitions with portfolio companies, I may also take officer level roles as we work to add new management team members. At Parthenon Capital, I have the opportunity to draw on nearly all aspects of what I learned at Tuck and many of the observations from the VE program. Like Tuck, I enjoy my experience at Parthenon Capital immensely.”
