

How to Access CareerLeader

Business school is an excellent opportunity to explore and pursue what you are passionate about. CareerLeader is an online career self-assessment tool that can help you gain better insight your interests, values and abilities, and how these attributes align with various business functions and industries. The Career Development Office advisors will help you evaluate your results in a one-on-one session, and also in an interactive group workshop on Campus.

To register your account:

- 1) Visit: <https://www.careerleader.com/sign-in.html> and follow the onscreen prompts to the NEW USER section of the page
- 2) Enter your Tuck email address: xxxxxx@tuck.dartmouth.edu
- 3) Enter your registration key: tuck-gravy (the hyphen is required)
- 4) Once you have successfully logged in and registered your account, you will be brought to your user dashboard. There, you will be able to click on TAKE THE TEST for each of our three inventories (INTERESTS, MOTIVATORS, SKILLS).
- 5) After completing all three inventories, you will be able to view your personalized results in each of the six sections on the dashboard (for which there are buttons to click). Your printable personalized CareerLeader Report is available within the Toolbox section of your dashboard.

Please use your legal name to register. If you have any issues, contact Nanette Thelemaque in the CDO at nanette.thelemaque@tuck.dartmouth.edu.
